## MEDICAL TRAINING PROGRAM IN HAITI

### OUR GOAL IS TO CHANGE THE HEALTH PARADIGM IN HAITI ONE LIFE AT A TIME

—

We are an all volunteer, non faith-based, non-profit organization made up of doctors, ARNPs, PAs, nurses, paramedics, and community organizers. We are committed to changing the healthcare paradigm in Haiti toward a focus on primary care, emergency response training, and community education. We raise and distribute funds for educating Haitian healthcare professionals on preventative care and emergency training, providing Basic Life Support and Advanced Cardiac Life Support classes, and for distributing much needed medical equipment in rural Haiti.

**IRS Status:**

501(c)(3) Non-Profit

**Date of Incorporation:**

March 30, 2017

**2017 Board Members:**

Jennifer Goldman, DO, Co-President,  
Co-Founder, Primary Care Haiti

Kissinger Goldman, DO.MBA, Co-President,  
Co-Founder, Primary Care Haiti

Marie Evelyne Moise, MD, Vice President

Joanne Cancelmo, CPA, Treasurer

Simon Serrao, Secretary

“WHOEVER SAVES A LIFE, IT IS CONSIDERED AS IF THEY SAVED AN ENTIRE WORLD.”

## Education

With your help, we can continue – and expand – our life-saving work.

Each year, Haitian medical students and nursing students travel long distances to learn with us. Their passion and excitement for learning not only fuels our mission, but ensures that the work we do will be integrated in the fabric of healthcare in Haiti. In fact, many of the medical and nursing students we trained are now teaching others and providing the day-to-day quality healthcare relied on by so many. With your support, we can reach even more people, provide more training, and bring more supplies.

Primary Care Haiti distributes donated medical equipment and educates Haitian doctors and nurses working in rural towns. We concentrate on preventative medicine, specifically, physical exam skills, cervical cancer screening, and the management of chronic diseases like high blood pressure. We also teach rapid-response skills needed for Haitian healthcare professionals to be ready for any emergency.

## Support Our Work

Every donation helps change the healthcare trajectory of a Haitian family for generations. Every donation helps educate Haitian medical providers and provides critical medical equipment such as defibrillators, EKG machines, and technology to detect and treat a range of conditions. **Help us provide critical medical equipment and training to healthcare systems outside the capital of Haiti.**

## Our 2017 Accomplishments

The year 2017 was a phenomenal beginning for Primary Care Haiti. Haiti's healthcare system is lacking in primary care and emergency medicine. Cervical cancer, which is preventable, is still the number one cause of cancer in Haitian women. There is no coordinated Haitian emergency medical system. Our organization is focused on educating Haitian physicians, nurses, and other medical professionals on the skills necessary to prevent disease and respond to emergencies around the country. Thanks to your donations, we accomplished the following:

### June 12-17, 2017 Medical Training Trip to Pignon, Haiti:

- ACLS (Advanced Cardiac Life support) training for nurses and doctors
- BLS (Basic Life Support) training for nurses and doctors
- Cervical cancer screening training for Haitian nurses and doctors (including PAP smear and mobile colposcopy training)
- Over 600 patients screened for cervical cancer
- Thousands of dollars worth of equipment donated and shipped at no cost courtesy of DHL
- Donated equipment used to set up an ICU, NICU, and emergency room at L'hôpital Bienfaisance Pignon, in rural Haiti
- Electronic Medical Record setup and training, made possible thanks to donated computers from South Florida Digital Alliance
- Training provided in all aspects of patient triage, taking vital signs, and keeping accurate medical records
- Community education training on breast cancer and cervical cancer prevention, early detection, and treatment

*"I really enjoyed this training. Primary Care Haiti took away the cliché that only gynecologists can do cervical cancer screening. As an internist, I now know that I, too, can do these exams".*

- Dr Wagler

*"The day after our first ACLS (advanced cardiac life support) in June, at L'Hôpital Bienfaisance, a gentleman was brought into the ER after he was involved in a motor vehicle accident. According to the physician who was on the scene, the patient's heart had stopped; but thanks to the training he had received the previous day, he was able to bring him back to life."*

## Volunteer Information

Primary Care Haiti is an all volunteer organization made up of ARNPs, PAs, nurses, paramedics, and community organizers from Haiti and the United States. We are all committed to changing the healthcare paradigm in Haiti toward a focus on primary care and community education.

## **“In Kind” Donations:**

**A special thanks to our In-Kind donors.**

### **Medical equipment donation**

- Onslow Memorial Hospital
- Memorial Healthcare System
- CMS (Complete Medical Services)
- Preferred Medical Group
- Gastro Health
- St. Joseph’s Candler
- Dimensional Analytic Solutions
- Actinotec Screen Beam

### **Donation of shipping for medical equipment**

- DHL

### **Other “In-Kind” donations**

- South Florida Digital Alliance (Computer donations)
- Josh Prezant (Free photography of our events)
- Dimensional Analytic Solutions (IT training and equipment donation)
- KIDS CAN (Computer donations)
- Madeleine Cameo
- Mark Matouka
- Ramat Shalom iServe Group
- Martine Joseph
- Delmas
- Gordon Garland
- Vanessa Ledesma
- Grant Blackburn
- Solange Jerome

## **Hospital Partners**

- Hospital Bienfaisance, Pignon
- Hopital Immaculee Conception, Cayes
- Hopital Albert Schweitzer, Deschapelles

***Thank you to all of our 2017 donors.***
